If Men Ruled The World

- Each year, your raise would be pegged to the fortunes of the NHL team of your choice.
- The funniest guy in the office would get to be CEO.
- It would be considered harmless fun to gather 30 friends, put on horned helmets, and go pillage a nearby town.
- Tanks would be far easier to rent.
- Instead of beer belly, you'd get "beer biceps."
- Instead of an expensive engagement ring, you could present your wife-to-be with a giant foam hand that said, "You're #1!"
- Valentine's Day would be moved to February 29th so it would only occur in leap years.
- On Groundhog Day, if you saw your shadow, you'd get the day off to go golfing.. St. Patrick's Day, however, would remain exactly the same. But it would be celebrated every month.
- The only show opposite Monday Night Football would be Monday Night Football from a Different Camera Angle.

Three contractors were visiting a tourist attraction on the same day. One was from New York, another from Texas, and the third from Florida. At the end of the tour, the guard asked them what they did for a living. When they all replied that they were contractors, the guard said, "Hey, we need one of the rear fences redone. Why don't you guys take a look at it and give me a bid?" So, to the back fence they all went to check it out. First to step up was the Florida contractor. He took out his tape measure and pencil, did some measuring and said, "Well I figure the job will run about \$900. \$400 for materials, \$400 for my crew, and \$100 profit for me." Next was the Texas contractor. He also took out his tape measure and pencil, did some quick figuring and said, "Looks like I can do this job for \$700. \$300 for materials, \$300 for my crew, and \$100 profit for me." Without so much as moving, the New York contractor said, "\$2,700." The guard, incredulous, looked at him and said, "You didn't even measure like the other guys!"

How did you come up with such a high figure?" "Easy," he said. "\$1,000 for me, \$1,000 for you and we hire the guy from Texas."

What is the link between gum disease and heart disease?

Several theories exist to explain the link between gum disease and heart disease. One theory is that oral bacteria can affect the heart when they enter the blood stream, attaching to fatty plaques in the coronary arteries (heart blood vessels) and contributing to clot formation. Coronary artery disease is characterized by a thickening of the walls of the coronary arteries due to the buildup of fatty proteins. Blood clots can obstruct normal blood flow, restricting the amount of nutrients and oxygen required for the heart to function properly. This may lead to heart attacks.

Another possibility is that the inflammation caused by gum disease increases plaque build up, which may contribute to swelling of the arteries.

Researchers have found that people with gum disease are almost twice as likely to suffer from coronary artery disease as those without gum disease.

BAD TOOTH

A man and his wife entered
the dentist's office.

"I want a toothpulled, "the man
said. "We are in a big hurry,
so let us not fool around with
gas or Novocain or any of
that stuff."

"You are a very brave man,"
remarked the dentist.

"Which tooth is it?"

"Show him your bad
tooth, honey," said
the man to his wife.

Life Explained

On the first day, God created the dog and said, "Sit all day by the door of
your house and bark at anyone who comes in or walks past. For this, I will
give you a life span of twenty years."

The dog said, "That's a long time to be barking. How about only ten years
and I'll give you back the other ten?"

So God agreed.....

On the second day, God created the monkey and said, "Entertain people, do
tricks, and make them laugh. For this, I'll give you a twenty-year life span."

The monkey said, "Monkey tricks for twenty years? That's a pretty long
time to perform. How about I give you back ten like the dog did?"

And God agreed.....

On the third day, God created the cow and said, "You must go into the field
with the farmer all day long and suffer under the sun, have calves and give
milk to support the farmer's family. For this, I will give you a life span of
sixty years."

The cow said, "That's kind of a tough life you want me to live for sixty
years. How about twenty and I'll give back the other forty?"

And God agreed again.....

On the fourth day, God created humans and said, "Eat, sleep, play, marry
and enjoy your life. For this, I'll give you twenty years."

But the human said, "Only twenty years? Could you possibly give me my
twenty, the forty the cow gave back, the ten the monkey gave back, and
the ten the dog gave back; that makes eighty, okay?"

"Okay," said God. "You asked for it."

So that is why for our first twenty years, we eat, sleep, play and enjoy
ourselves. For the next forty years, we slave in the sun to support our
family. For the next ten years, we do monkey tricks to entertain the
grandchildren. And for the last ten years, we sit on the front porch and
bark at everyone.

Life has now been explained to you..

There is no need to thank me for this valuable information. I'm doing it as a
public service. If you are looking for me I will be on the front porch.

Isn't It Ironic

The average cost of rehabilitating a seal after the Exxon Valdez oil spill in Alaska was \$80,000. At a special ceremony, two of the most expensively saved animals were released back into the wild amid cheers and applause from onlookers. A minute later they were both eaten by a killer whale.

In 1992, Frank Perkins of Los Angeles made an attempt on the world flagpole-sitting record. By the time he had come down, eight hours short of the 400 day record, his sponsor had gone bust, his girlfriend had left him and his phone and electricity had been cut off.

**IRONIC
ISN'T
IT?**

A woman came home to find her husband in the kitchen, shaking frantically with what looked like a wire running from his waist towards the electric kettle. Intending to jolt him away from the deadly current she whacked him with a handy plank of wood by the back door, breaking his arm in two places. A shame as he had merely been listening to his Walkman.

Two animal rights protesters were protesting at the cruelty of sending pigs to a slaughterhouse in Bonn. Suddenly the pigs, all two thousand of them, escaped through a broken fence and stampeded, trampling the two hapless protesters to death.

Reasons The 80's Were A Cooler Time To Grow Up Than The 90's

- 10) MTV actually played videos in the 80's.
- 9) There were only one kind of Nike tennis shoes (white with a red swish), and they didn't cost \$125.
- 8) A comb in your back pocket is more practical and less painful than a ring through your nose.
- 7) In the 80's playing video games actually meant going out to DO something.
- 6) In the 80's, when you were out partying, you didn't have to worry about your Mom calling you on your cell.
- 5) In the 80s we didn't have to worry about getting our heads blown off at school -- unless you put a whole pack of Pop rocks in your mouth and drank a coke.
- 4) Debbie Gibson vs. Britney Spears. New Kids on the Block vs. NSync. New Edition vs. Hanson. OK, that one's a draw.
- 3) In the early 80's there were kids in your high school who could BUY ALCOHOL LEGALLY.
- 2) Feathered hair was easier to care for than dreadlocks.
- 1) In the 80's you didn't have to worry about your pants falling down all the time
